

Social Bookmarks Supercharged - Zen Cart Module

Price: \$19.00

Product description:

Social Bookmarks Supercharged (120 services) - Zen Cart Module is a unique solution which lets your customers bookmark your site: any your product, category or page into social favorites / bookmarking services.

Social bookmarking sites are a popular way to store, classify, share and search links. In a social bookmarking system, users store lists of Internet resources, which they find useful. These lists are both accessible to the public or a specific network, and other people with similar interests can view the links by category, tags, or even randomly.

Since the classification and ranking of resources is a continuously evolving process, many social bookmarking services allow users to subscribe to web feeds based on tags, or collection of tag terms. This allows subscribers to become aware of new resources for a given topic, as they are noted, tagged, and classified by other users.

Also, social bookmarking is **very good for Search Engine Optimization**: the more people bookmark you store, the more value your store has for search engines.

As a result you get more targeted visitors, who are eager to become your customers - **don't miss this opportunity**

Most popular sites using it already - [CNET News](#), MySpace, [Yahoo](#), even [Official Google Blog](#) has this functionality - you have to **do this ASAP**

Module Features:

- flexible bookmarks pane position suitable for any store design: choice from multiple predefined layouts are available
- turn on or off any bookmarking service
- support of all most popular favorites services - **120 out of the box** and adding constantly!
